

Version Release – DUC Projections Dashboard

Effective Date

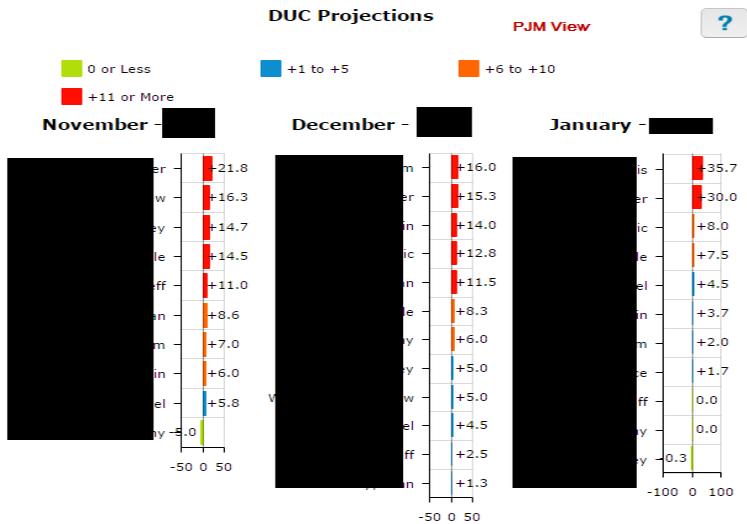

Nov 4, 2015

Summary

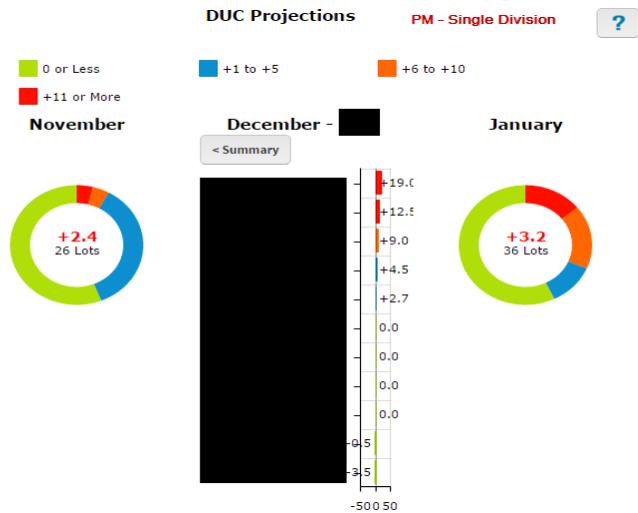

The newest graph on the dashboard is the DUC projections; depending on security settings your view will be different. Data is based off of the End of DUC task for a given lot depending on the month.

Dashboard

- **PJMs logging in will see a breakdown for only their division. If you hover your mouse over the bar next to a person’s name you will see the number of lots affected**

- **PMs/BO will see an donut with the division average, if they click on the colored bar it will break it down by PJM**

- **PMs/RPMs with multiple division access will see a breakdown by division and by PJM each time they click on a colored bar**
